Awake your exhausted immune system!

HEMOHIM is a new substance with special immune function that has been developed from Angelica radix, Chuanxiong Rhizoma, and Paeoniae Alba Radix through biological engineering and radiation technology.

Safety and function has been proven through clinical tests, and has been approved by the KFDA as the very first health functional supplement assisting functions of the immune system.

All ingredients have been individually approved by the Korean Ministry of Food and Drug Safety (MFDS) as functional health supplements.

WHAT DOES HemoHIM + Plus NAME MEAN?

- **Hemo** is short for hemoglobin.
- **H** is an abbreviation for hematopoiesis (production of blood cells)
- **I** is an abbreviation for immune

- **M** is an abbreviation for modulation
- **Him** also means strength in Korean.
- The **+** refers to an improved version of HemoHIM.

Benefits of HemoHIM Plus

- Strengthen the immune system's natural functioning to fight various chronic diseases
- increase stamina as well as to improve general health for everybody
- NK cell activation - An immune cell which is generated in the human bone marrow to destruct harmful substances to the human body. NK cells can eat cancer cells
- produce more white blood cell, produce more red blood cell
- Immunity enhancement - Enhances immunity to maintain health
- Immune cell activation - Improves human body defense capacity

HemoHim Plus Development

- 8 years of research and development as a national project(\$5million, 15PH.D & 30 staff) in Food & Biotechnology Team of Korea Atomic Energy Research Institute (KAERI)
 - Development of Functional Bio-defense Food for people dealing with radiation(KAERI Food & Biotechnology Team/Korea Cancer Center Hospital) - KAERI wanted to protect its workers from harmful effect of radiation and wanted to share its technology and solution, the new substance HemoHim, with the whole world
 - The very first individually approved health functional supplement assisting functions of the immune system(Proven through numerous tests) by Korean FDA. Also approved by USFDA
 - Patented in the United States, 4 major countries of Europe(England, German, France, Italy), as well as Japan and Korea,HemoHIM is continually proving its effect in immunity enhancement
- USA Patent US06964785** - Herbal composition for improving anticancer activity, immune response and hematopoiesis of the body, and protecting the body from oxidative damage, and the method of preparing the same
- 159 research papers on this product alone

HemoHIM Plus Consumption Instruction:

- One packet 20ml twice per day, 60 packets in total per box.
- Is a liquid, paste-like substance taken orally.
- Tastes a little bitter sweet(similar to prune juice) and most people become accustomed to the taste within a few days. Some people dilute with water or juice, but it is best to take directly.
- Drinking a cup of warm water after you consume it will help it absorb.
- Some people show effects right away, but some people take time building immune cells so it is

recommended that you finish one box with recommended dosage (twice a day) to see results.

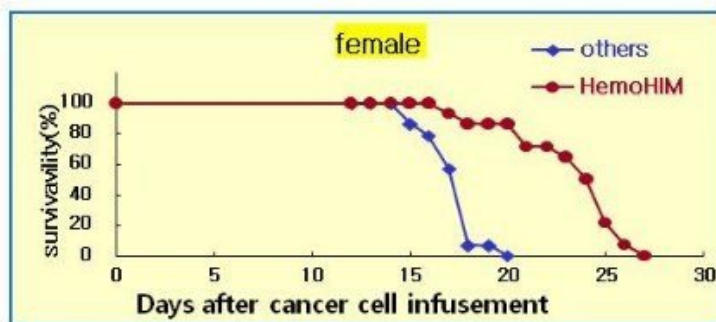

Atomy HemoHIM Plus is recommended for the following people.

- **Anyone** who wants to boost up immune system and stamina
- **Chronic Disease patients**
- **Elders** who need energy restoration
- **Workers** exhausted from long hours
- **Students** that need physical endurance
- **Long-distance drivers**
- **House-wives** worn out from stress of housework
- **Athletes** who consume a lot of physical energy

Animal Experiment HemoHIM mixed herbal extracts improved the recovery and survival rate of animals with reduced levels of white blood cells and lymphocytes in the peripheral blood. Oral administration of HemoHim into animals with deficient immunity resulted in significant recovery of the number of white blood cells and lymphocytes, as well as NK cell activation.

Anti-cancer supporting function -2

Planting cancer cell, surviving time lengthened with HemoHim infused

HemoHim : cancer-restraining after planting cancer cell (picture - 12 days after infusion)

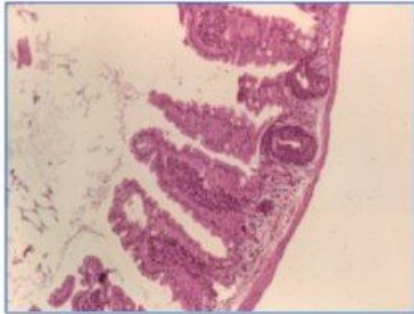

Other mouse with cancer planted

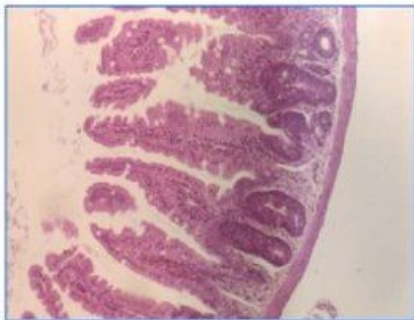

Mouse with HemoHim infused

IMMUNE FUNCTION-2

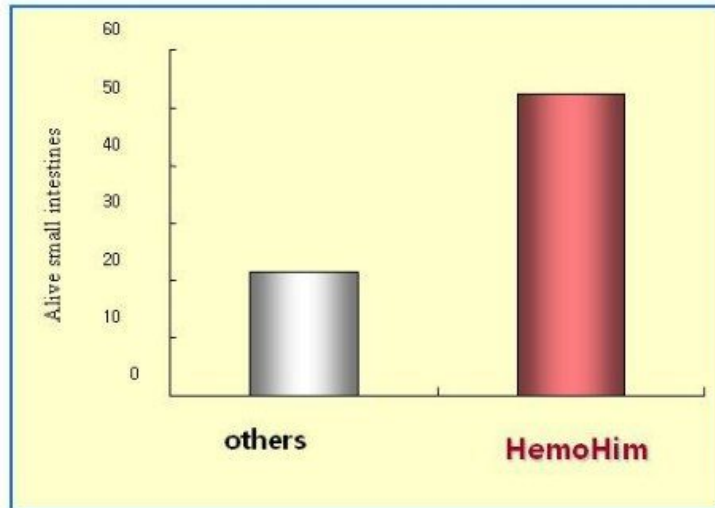

Protects regenerating textures & enhance reproductivity

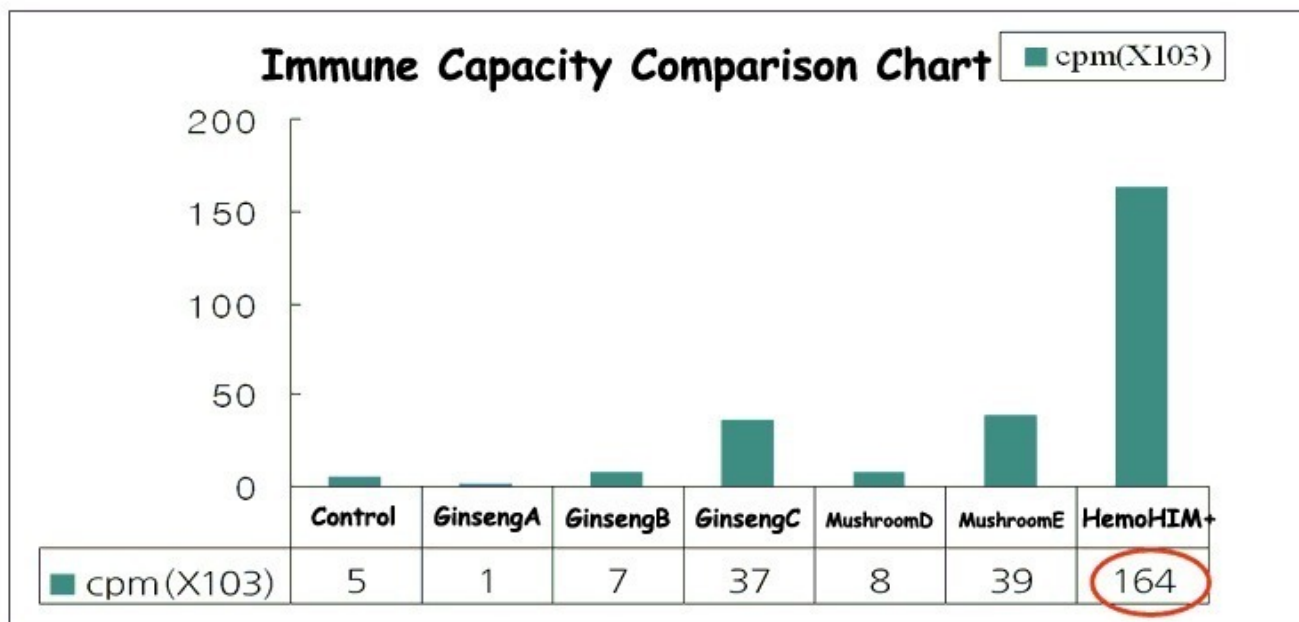

Small intestine of model mouce

Small intestine after HeMOHIM infusement

Human Body Experiment 63 people with less than 5000/ul of white blood cells took HemoHIM Plus mixed herbal extracts and experienced enhanced NK cell, cytokine, and immunocyte activity. * Human based data may vary according to individual constitution.

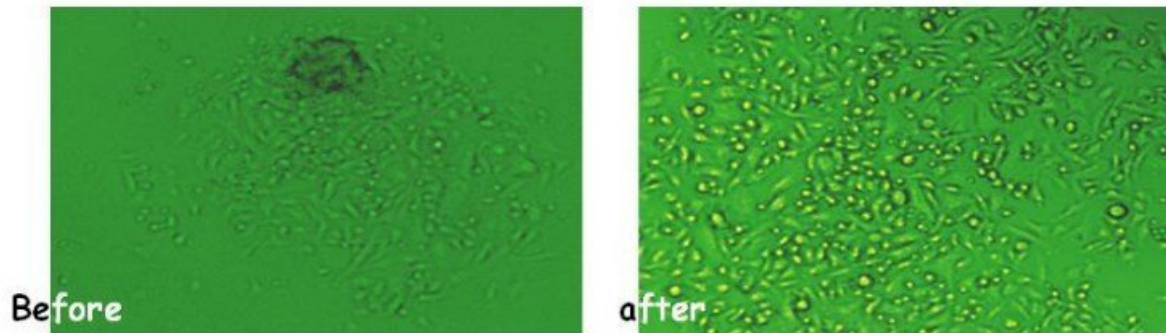

**Ginseng Products 3 types(A,B,C) -Jinsam, Ginseng Steamed Red(Hong-Sam), Seonsam
Mushroom Polysaccharide Products 2 types(D,E) -Trametes versicolor(Unji), Phellinus
Products does not come close to even 40% of HemoHIM's immune capacity**

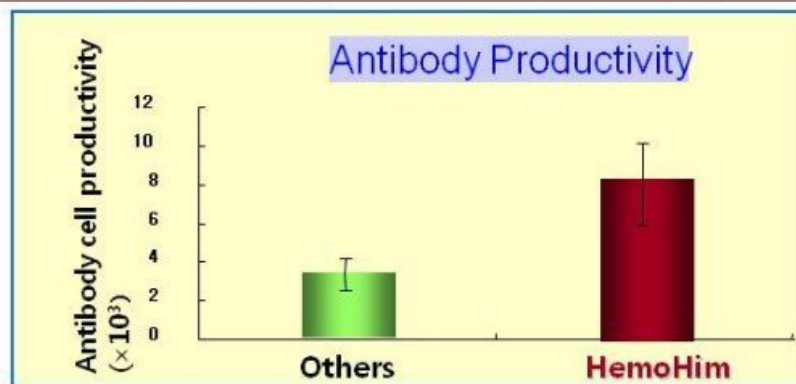

As shown in the above diagram HemoHIM+ has been proven to be several times more effective than ginseng products and mushrooms for increasing immune capacity. HemoHIM+ was tested against Jin Sam (A), Hong Sam Red Ginseng (B), and Seonsam ginseng (C). It was also tested against Eungi (D) and Sanghwang (E) mushrooms varieties.

IMMUNE FUNCTION-1

Through HemoHim, NK cells proliferate from marrow cells

Effective Immunity enhancement by HemoHim
